Screen Shots

Index.html

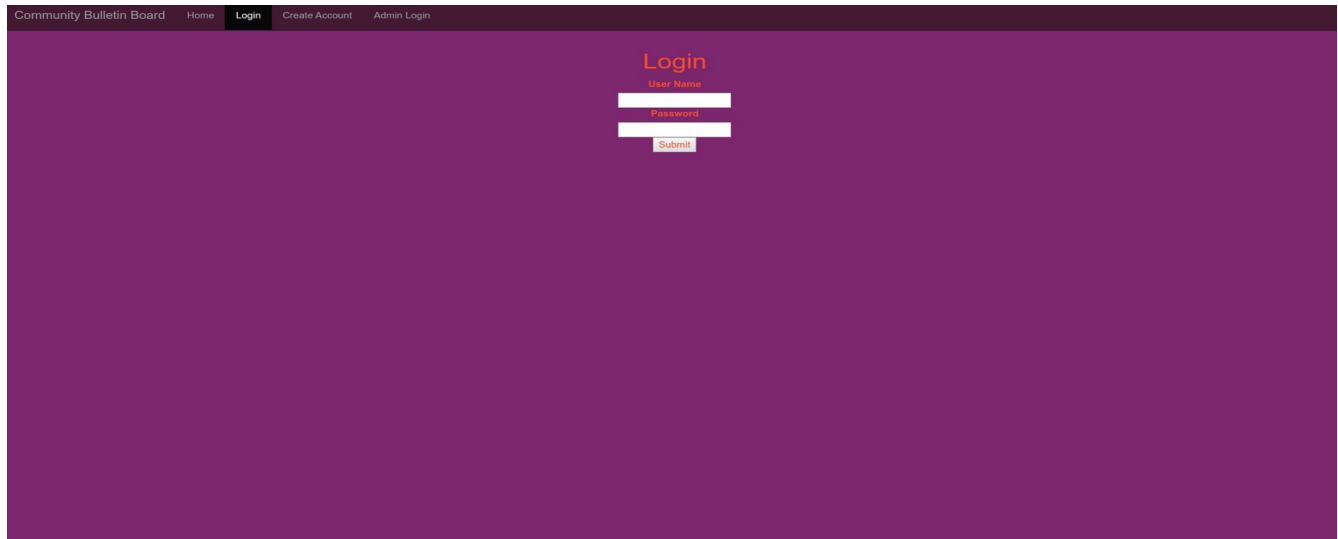

This is the index page, welcoming users that have not yet logged into the system. The user can navigate to the Login page, Create User page and the Admin login page from the top navigation bar.

Create-user.html

The screenshot shows the "Create User" page of the web application. It features the same dark purple navigation bar at the top with "Community Bulletin Board" and links: "Home", "Login", "Create Account" (highlighted), and "Admin Login". The main content area has a solid purple background. Centered on this background is the heading "Create User" in light orange. Below the heading is a vertical stack of five white input fields, each with a light orange label above it: "User Name", "Password", "Re-enter Password", "Email", and a "Submit" button at the bottom.

On this page there is a form for the user to enter information to create an account. After the user creates an account, they are brought back to the index.html page and can login selecting the appropriate link in the navigation bar. The create-user page also has navigation bar in case they want to go to the login pages instead.

Login.html

Community Bulletin Board Home **Login** Create Account Admin Login

Login

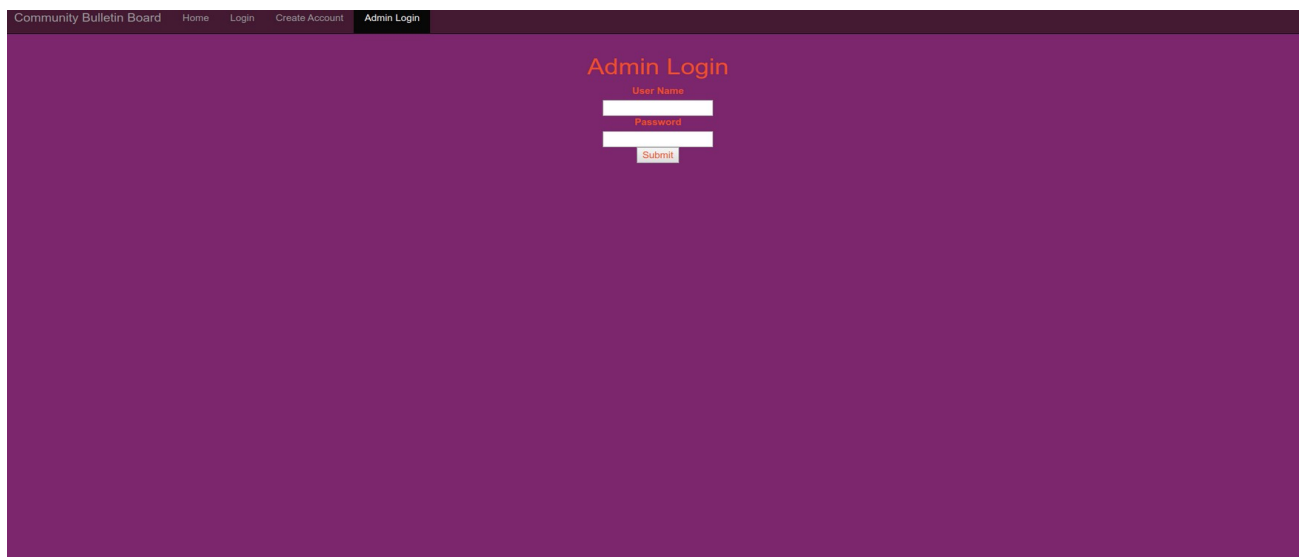

User Name

Password

Submit

From the login page there is a form that allows the user to enter their username and password. Once this is verified against the database, the user is brought to the customer portal page. This page also includes the navigation bar which allows them to go back to the index, create-user page, or admin-login pages.

Admin-login.html

Community Bulletin Board Home Login Create Account **Admin Login**

Admin Login

This page allows the user to enter the amount of donation as well as the credit card information to be used to make the donation. This then brings the user to the confirmation page. This page contains a customer focused navigation bar which has links to the book-event page, the class-signup page make-donation page, homecare page, request-shuttle page and a logout link which brings the user back to the index page.

Volunteer.html

The screenshot shows a web form titled "Volunteer to Teach Class" on a purple background. At the top, there is a dark navigation bar with links: "Community Bulletin Board", "Home", "Book Event", "Class Signup", "Make Donation", "Volunteer" (highlighted), "Home Care", "Shuttle Service", and "Logout". The form itself is centered and contains three input fields: "Class Type" (a text box), "Date" (a date picker showing "mm/dd/yyyy"), and "Size" (a text box). Below these fields is a "Submit" button.

This page allows the user to enter the type of class that they want to teach, date and size of class. This brings the user to the confirmation page. This page contains a customer focused navigation bar which has links to the book-event page, the class-signup page make-donation page, homecare page, request-shuttle page and a logout link which brings the user back to the index page.

Request-homecare.html

The screenshot shows a web page with a dark purple header navigation bar containing links: Community Bulletin Board, Home, Book Event, Class Signup, Make Donation, Volunteer, Home Care (highlighted), Shuttle Service, and Logout. The main content area has a light purple background and is titled 'Request Homecare Service' in orange. The form fields are centered and include: Location, Date (mm/dd/yyyy), Credit Card Number, Expiration Date (mm/dd/yyyy), Name on Card, and a Submit button.

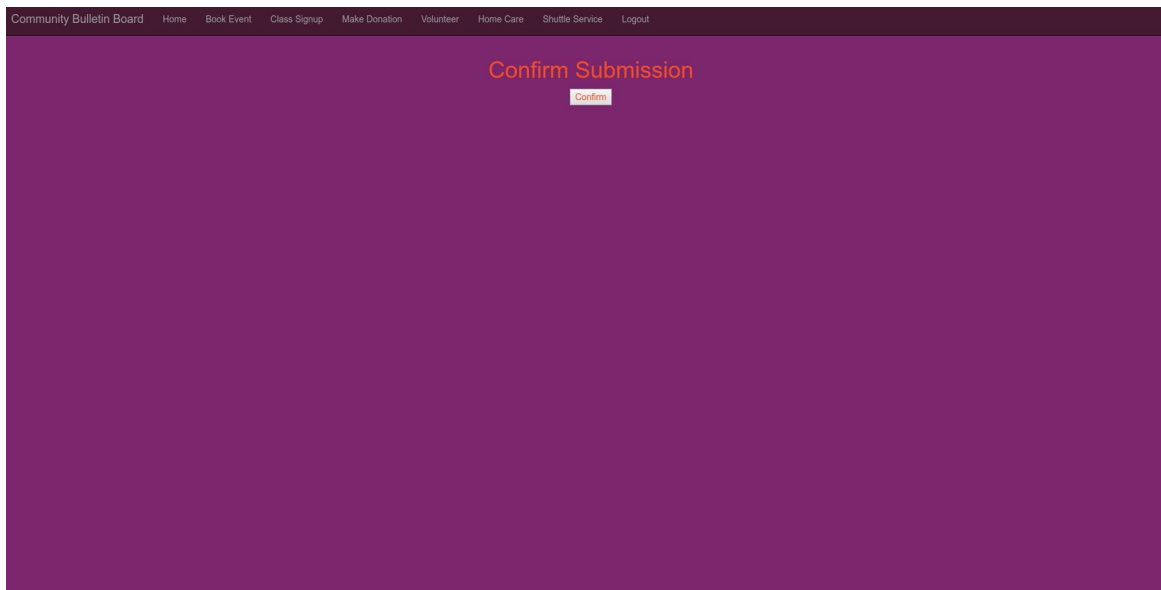

This page allows the user to enter the location, date, and credit card information to request homecare. Then they are brought to the confirmation page. This page contains a customer focused navigation bar which has links to the book-event page, the class-signup page make-donation page, homecare page, request-shuttle page and a logout link which brings the user back to the index page.

Request-shuttle.html

The screenshot shows a web page with a dark purple header navigation bar containing links: Community Bulletin Board, Home, Book Event, Class Signup, Make Donation, Volunteer, Home Care, Shuttle Service (highlighted), and Logout. The main content area has a light purple background and is titled 'Request Shuttle Service' in orange. The form fields are centered and include: Pickup Location, Drop-off Location, Date (mm/dd/yyyy), Credit Card Number, Expiration Date (mm/dd/yyyy), Name on Card, and a Submit button.

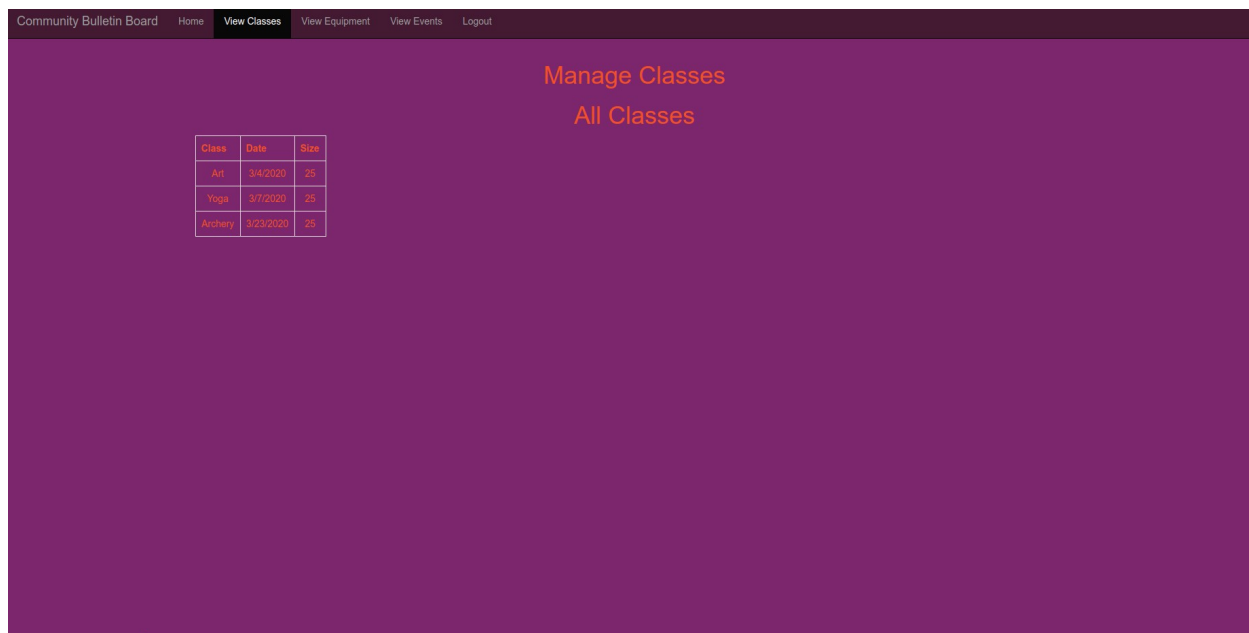

This page has fields for the user to enter the pick up location, drop off location, date, and credit card information for the user to request shuttle service. This brings the user to the confirmation page. This page contains a customer focused navigation bar which has links to the book-event page, the class-signup page make-donation page, homecare page, request-shuttle page and a logout link which brings the user back to the index page.

Confirmation.html

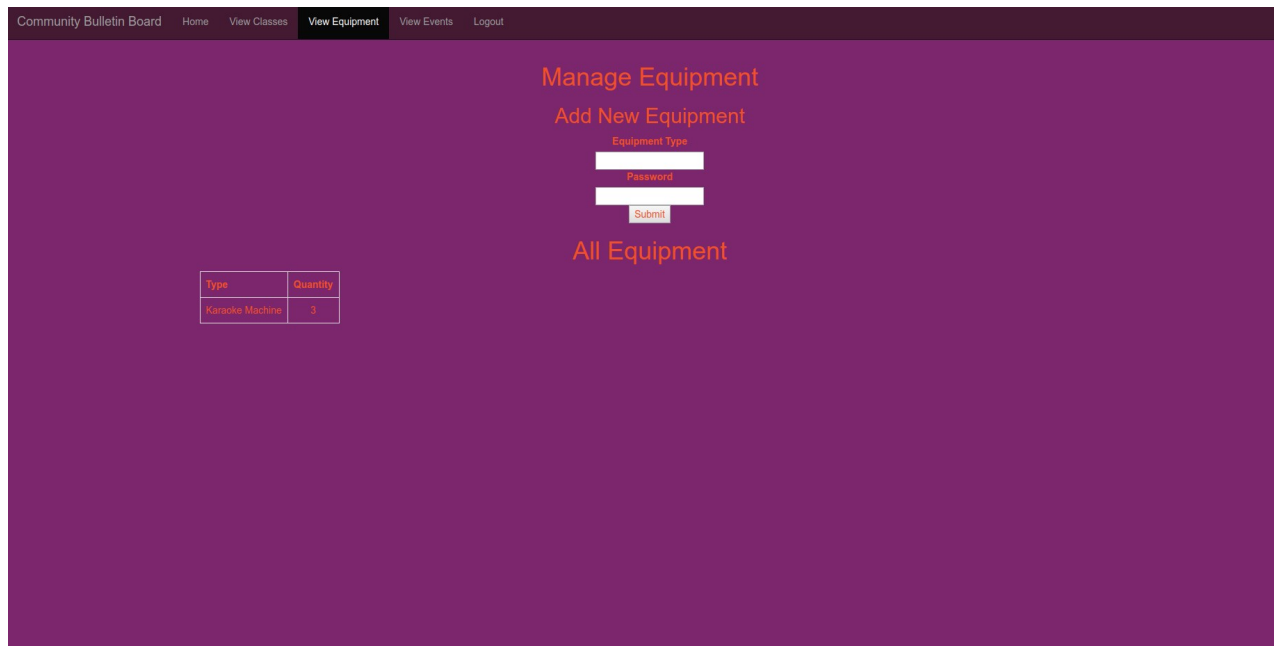

This page will display all of the relevant information from the previous page for the user to confirm. Upon confirmation, the user is brought back to the customer-portal. This page contains a customer focused navigation bar which has links to the book-event page, the class-signup page make-donation page, homecare page, request-shuttle page and a logout link which brings the user back to the index page.

View-classes.html

This page displays all of the classes with the information about each that are currently in the system in a table for the admin to view. This page contains the admin navigation bar which has links to the view-classes page, view-equipment page, view-events page, admin portal page and logout link which brings the user back to the index.

View-equipment.html

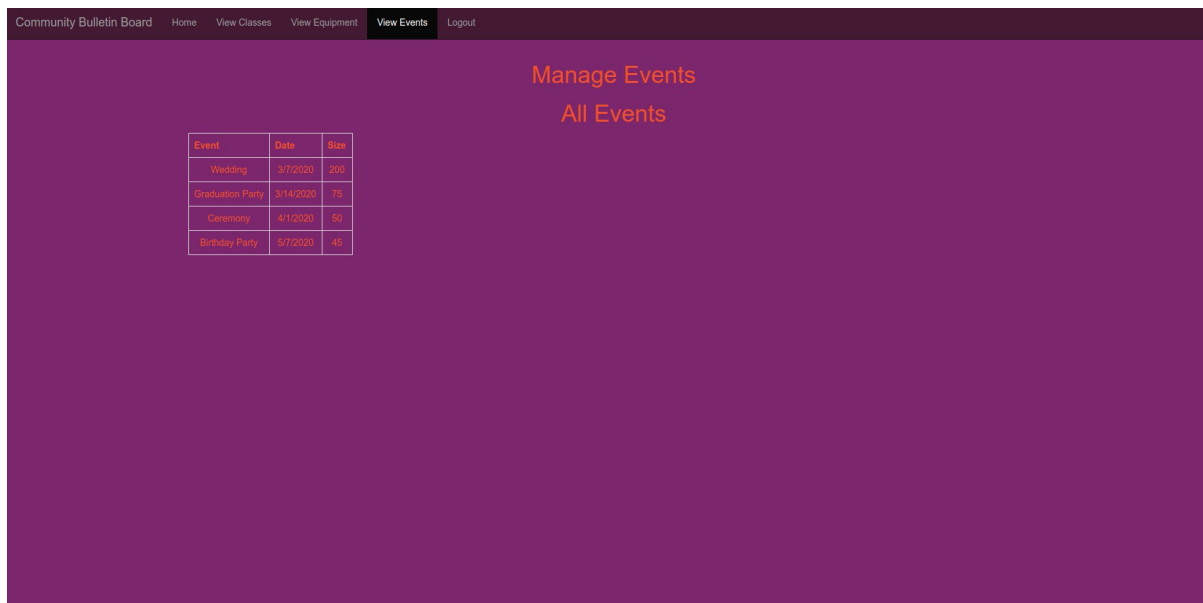

The screenshot shows the 'View Equipment' page of a web application. At the top is a navigation bar with links: 'Community Bulletin Board', 'Home', 'View Classes', 'View Equipment' (highlighted), 'View Events', and 'Logout'. The main content area has a purple background. On the left, there is a table titled 'All Equipment' with two columns: 'Type' and 'Quantity'. The table contains one row: 'Karaoke Machine' with a quantity of '3'. On the right, there is a form titled 'Manage Equipment' with a sub-header 'Add New Equipment'. The form has two input fields: 'Equipment Type' and 'Password', followed by a 'Submit' button.
